Bahan Aktif:

PHYTOCELLTEC™ MALUS DOMESTICA

Dikenal karena kapasitasnya yang luar biasa untuk tetap segar dari waktu yang lama, sel induk apel membantu meningkatkan vitalitas kulit dan menunda proses penuaan dengan melindunginya dari kerusakan akibat tekanan lingkungan.

- Meningkatkan vitalitas sel-sel dalam tubuh
- Menunda proses penuaan sel-sel dalam tubuh
- Melindungi sel-sel tubuh dari kerusakan akibat tekanan lingkungan

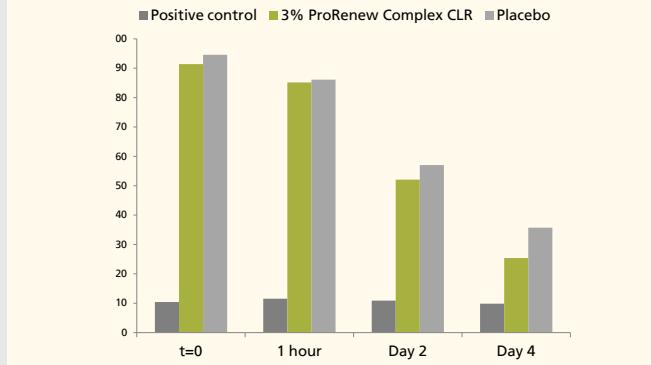

ALOE VERA

Tanaman yang sudah terkenal akan manfaatnya untuk kecantikan kulit. Aloe vera kaya akan asam amino dan mampu merangsang pertumbuhan sel, sehingga dinilai sebagai pembersih kulit yang luar biasa.

PEPG-COLLAGEN

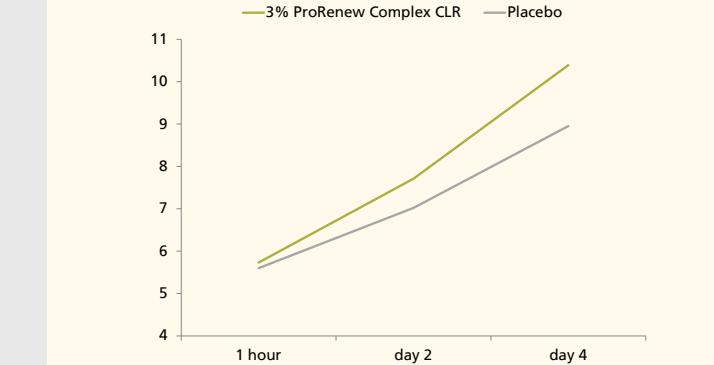

Collagen merupakan salah satu protein paling melimpah di tubuh manusia. Collagen berfungsi menjaga stabilitas dan kekuatan jaringan tubuh dengan membuat jaring pendukung di sepanjang struktur sel.

Efek ProRenew Complex CLR™ dalam menstimulasi pemulihan barrier kulit

Active Ingredients:

PHYTOCELLTEC™ + MALUS DOMESTICA

Known for its exceptional capacity to stay fresh from a long period, apple stem cells helped boost the skin's vitality and delaying the aging process by protecting it from the damage due to environmental stress.

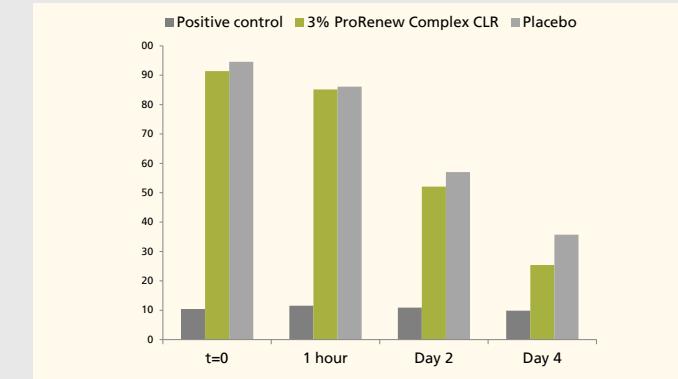

- Increase the vitality of cells in the body
- Delaying the aging process of cells in the body
- Protect body cells from damage due to environmental stress

Benefits:

- Eliminating acne
- Inhibit the appearance of wrinkles
- Brighten the skin
- Treat sunburn
- Moisturizes the skin
- Reduces black spots
- Reduces skin pigmentation
- Induces skin renewal
- Speed up skin barrier recovery process

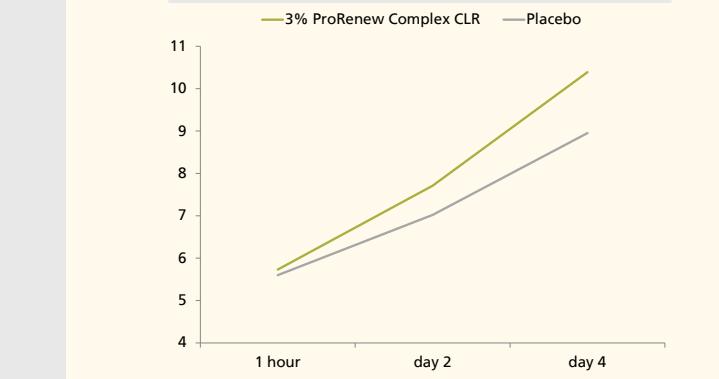

Bio SC Benevia Body Wash is formulated to help clean up the remnants of dirt on the body and make the skin look brighter. It contains PhytoCelltec™, Aloe Vera and Collagen, so Bio SC Benevia Body Wash also helps delay aging, maintain skin elasticity, reduce pigmentation, and maintain skin softness and moisture.

ProRenew Complex CLR™ effect in stimulating skin barriers restoration

ALOE VERA

Plants that are already famous for their benefits for skin beauty. Aloe vera is rich in amino acids and can stimulate cell growth, so it is considered as an exceptional skin cleanser.

Collagen is one of the most abundant proteins in the human body. Collagen functions to maintain the stability and strength of body tissues by making supporting nets along with the cell structure.

PEPG-COLLAGEN

3M3.WHITERIS G

Made from *Dictyopteris Membranacea* (Sea Fern) which lives in a French ocean, 3M3 WHITERIS G affects genes that control the three main mechanisms involved in skin pigmentation, which is melanosome maturation, Melanogenesis (occurring in adult melanosomes), and melanosome migration (responsible for melanosomes export of melanin in the direction of keratinocytes).

PRORENEW COMPLEX CLR™

The raw material formulated from lysate from *Lactococcus lactis* and contains cytoplasm and cell wall fragments which increase the competitiveness of skin cells because it is processed using biotechnology suspension methods of bacteria producing probiotic lactic acid.
